WHO WE ARE

360 Construction Group, Inc., serves as a full service commercial General Contractor working with clients, architects and sub-contractors to facilitate and manage projects with the primary goal of exceeding our clients' expectations.

Our goal is to deliver projects on time and on budget with the quality our clients' demand. We at 360 CGI require that all aspects of construction (design, time, budget and most importantly, quality) remain an absolute priority. We start with identifying the client's vision and

expectations and then use the necessary resources to turn this vision into a tangible plan that holds to the standards that the client demands and deserves.

With 360 CGI serving as your general contractor, we oversee every stage of the project's development and eliminate the problems that routinely occur in such projects. 360 CGI works with our clients from start to finish on every project assuring quality and satisfaction from our clients.

GREAT
BUILDERS

SUSTAINABLE BUILDING

- An integrated and interdisciplinary approach to the design and construction of facilities
- Proper planning for and locating of facilities
- Efficient utilization of natural resources
- Optimization of systems
- Protection of employee health and safety
- Mitigation of the generation of waste
- Reuse and recycling of waste materials
- Applying life-cycle analysis (LCA) to evaluate a facility's performance and make smarter decisions

OUR MISSION

360 CGI is dedicated to provide quality and timely solutions to owners and developers. Our core principles of integrity, dedication, communication, and quality guide us in achieving each owner's vision.

With 360 CGI serving as your Commercial General Contractor we will oversee every stage of the development and eliminate the problems that routinely occur in construction projects. 360 CGI works with our clients from start to finish on every project. 360 Construction Group, Inc. is your #1 Southern California General Contractor and best choice for all your construction projects and development needs.
